## II. OBLIGATIONS OF DEPOSIT AND DUE PUBLICITY

---

### OBLIGATIONS DE DÉPÔT ET DE PUBLICITÉ VOULUE

25. Coastal States, under article 16(2), article 47(9), article 75(2), and article 84(2), of the Convention, are required to deposit with the Secretary-General of the United Nations charts showing straight baselines and archipelagic baselines as well as other maps showing the 5 and

28. States Parties are encouraged to provide all the necessary information for conversion of the submitted geographic coordinates from the original datum into the World Geodetic System 84 (WGS 84), a geodetic datum system that is used by the Division for its internal data storage.

29. The Division is also assisting States in fulfilling their other obligations of due publicity established by the Convention. These obligations concern all laws and regulations adopted by the coastal State relating to innocent passage through the territorial sea (article 21 (3)) and all laws and regulations adopted by States bordering straits relating to transit passage through straits used for international navigation (article 42 (3)).

30. Notably, the Division informs States of the deposit of charts and geographical coordinates through a "maritime zone notification". The notifications are also listed in the *Law of the Sea Information Circular*, together with other relevant information concerning the discharge by States of the due publicity obligation. The past issues of the *Law of the Sea Information Circular* give ample evidence of the practice of States in this respect. The texts of the relevant legislation together with illustrative maps are then published in the *Law of the Sea Bulletin*.

31. Furthermore, concerning due publicity, article 25(3) of the Convention provides that "a coastal State may, without discrimination in form or in fact among foreign ships, suspend temporarily, in specified areas of its territorial sea the innocent passage of foreign ships if such suspension is essential for the protection of its security, including weapons exercises. Such suspension takes effect only after having been duly published."

A. Communications addressed to States Parties for the purpose of assisting them to comply with their deposit and due publicity obligations under the Convention

32. Following a coastal State becoming a Party to the Convention, the Division reminds that State of its deposit and due publicity obligations pursuant to the Convention.

28. Les États Parties sont invités à fournir toutes les informations nécessaires pour la conversion des coordonnées géographiques établies à partir des données initiales en données du Système géodésique mondial 84 (WGS 84), système de données géodésiques de plus en plus accepté comme norme et utilisé par la Division pour établir ses banques de données.

29. La Division assiste également les États à s'acquitter de leur obligation de publicité voulue en vertu de la Convention, à savoir : les lois et règlements, adoptés par un État côtier, relatifs au passage inoffensif dans sa mer territoriale (article 21(3)) et les lois et règlements, adoptés par les États riverains de détroits, relatifs au passage en transit dans les eaux des détroits servant à la navigation internationale (article 42(3)).

30. Notamment, la Division informe les États par une « notification zone maritime » que des cartes et des coordonnées géographiques ont été déposées. Ces renseignements sont énumérés dans la *Circulaire d'information sur le droit de la mer*, en même temps que d'autres informations pertinentes concernant l'exécution par les États de leur obligation de publicité. Les numéros précédents de la *Circulaire* rendent bien compte de la pratique suivie par les États à cet égard. Les textes des législations pertinentes et les cartes d'illustration sont publiés dans le *Bulletin du droit de la mer*.

31. De plus, concernant la publicité voulue, l'article 25(3) de la Convention prévoit que « l'État côtier peut, sans établir aucune discrimination de droit ou de fait entre les navires étrangers, suspendre temporairement, dans des zones déterminées de sa mer territoriale, l'exercice du droit de passage inoffensif des navires étrangers, si cette mesure est indispensable pour assurer sa sécurité, entre autres pour lui permettre de procéder à des exercices d'armes. La suspension ne prend effet qu'après avoir été dûment publiée ».

**B. Submissions by States Parties in compliance with their deposit obligations**

34. Between June and October 2011 Latvia deposited with the Secretary-General nautical charts and lists of geographical coordinates points specifying the baselines and/or the outer limits of its maritime zones. In order to give due publicity these nautical charts and the lists of geographical coordinates deposited with the Secretary-General of the United Nations, a "Maritime Zone Notification" has been circulated to all Member States of the United Nations, as well as States Parties to the Convention:

- Maritime Zone Notification, M.Z.N.84.2011.LOS of 13 July 2011 concerning the deposit by Latvia, pursuant to article 16(2), of the Convention, of charts showing the baselines and the outer limits of the territorial sea of the Republic of Latvia, including the lines of delimitation, as well as a list of geographical coordinates of points defining the baselines of the Republic of Latvia, as contained in Regulations 779 of 17 August 2010 on the coordinates of the points of the baselines.

35. The text of this Maritime Zone Notification as well as recapitulative information submissions by States Parties in compliance with their deposit obligations is available on the website of the Division at:
