

**Royal Notice No. 375 of 3 June 1966 containing Regulations
on the Measurement of the Territorial Waters of Sweden**

Article 1

The straight baselines referred to in article 4, second paragraph, of the Act concerning the territorial waters of Sweden shall extend between those points on the low-water line along the coast which are given in the attached list (baseline points) or, in the case of a harbour on the open coast, shall extend across the mouth of the harbour.

Between baseline point 103 and the boundary with Finland, the territorial sea shall be measured from a straight baseline which coincides with the straight line running between point 103 and the southernmost skerry off Selkäsvi Island (approximate position 65°36.2' N, 24°12.2' E).

Article 2

Save as otherwise provided in article 3, second paragraph, of the Act concerning the territorial waters of Sweden, the measurement of the territorial sea shall be effected in such manner that every point along the territorial limits shall be situated at a distance of four nautical miles from the nearest point on the coastline as referred to in article 4 of the said Act or the nearest point on a straight baseline.

List of baseline points

A horizontal line across column 1 denotes an interruption in the system of straight baselines.
