

He mentioned that / ESA is leading the preparations with inputs from all ECESA Plus members. The report will be read by the next year. Next the General Assembly is expected to conduct a consultation process on this basis.

5 Indicators & Development Marc'

The IAE on S / + Indicators supported by / ESA has made significant progress on the indicators proposal. They are going to be reviewed by the Statistical Commission at its next session in March 2012.

The Convener stressed that quality, accessible, timely and reliable disaggregated data will be key to decision-making. This will require strengthened statistical capacities including enhanced capacity building support for developing countries.

6 Financing for Development Forum April

The ECOSOC Financing for Development Forum was created to follow up on the Addis Ababa Action Agenda. The President of ECOSOC intends to convene the first forum in April and is considering its modalities.

7 Technology Facilitation Mechanism Spring

The 2010 Agenda and the Addis Ababa Action Agenda called for the establishment of a Technology

Existing mechanisms should be best used and adapted in a spirit of creativity and collaboration. ECESA Plus should continue to support the intergovernmental processes related to the 2030 Agenda including the SA 4.0 Pathway implementation. #66-s " to support the elaboration of 2030 Agenda as a good example showing that the # can " together as one to support the 4 member States. Effective platforms such as these "ould continue to "or" to "ards implementation of the 2030 Agenda.

He emphasized that business as usual "ill no longer be relevant. He noted that an integrated agenda requires integrated support to 4 member States' breaking silos and delivering as one. Implementation is o "ned b% national governments' "hich the # \$ should full% respect. He suggested strengthening communication and sharing experiences at all levels and also proposed continuing the ECESA Plus meeting at / irector level. ECESA Plus should concentrate more on normative and anal%tical "or" and implementation of the 2030 Agenda should be an inclusive process "ith contributions b% all stakeholders. \$o entities should be left behind.

6he Convener then opened the floor for discussions.

UN&P noted that # \$ countr% teams ' # \$C6s) "ere currentl% providing support to governments to reflect the 2030 Agenda in national development plans and policies. # \$C6s received an interim reference guide developed b% # \$ / + to support countries to mainstream the 2030 Agenda. # \$ / P explained that it utilized the 4 APS approach (mainstreaming, acceleration and polic% support) to support implementation. # \$ / P stressed that there "as no exclusive goal for an% organization and thsi 4 17 (a) 16. 7 638 (
