We are committed to working with Member States to carry forward the many productive suggestions on the future role and organization of the Commission that have been highlighted in recent discussions, in particular:

Promoting substantive and evidence-based debates on population and development;

Working more closely with all stakeholders; and

Allow me to congratulate the Chairs and the Bureaux of the current and previous sessions for the great strides that they have made in this regard.

And in closing, let me wish you a very successful meeting.
