

Regional Perspective on Population & Development from the Arab Region

Milad Pournik
Associate Social Affairs Officer
July 19, 2023

Introduction

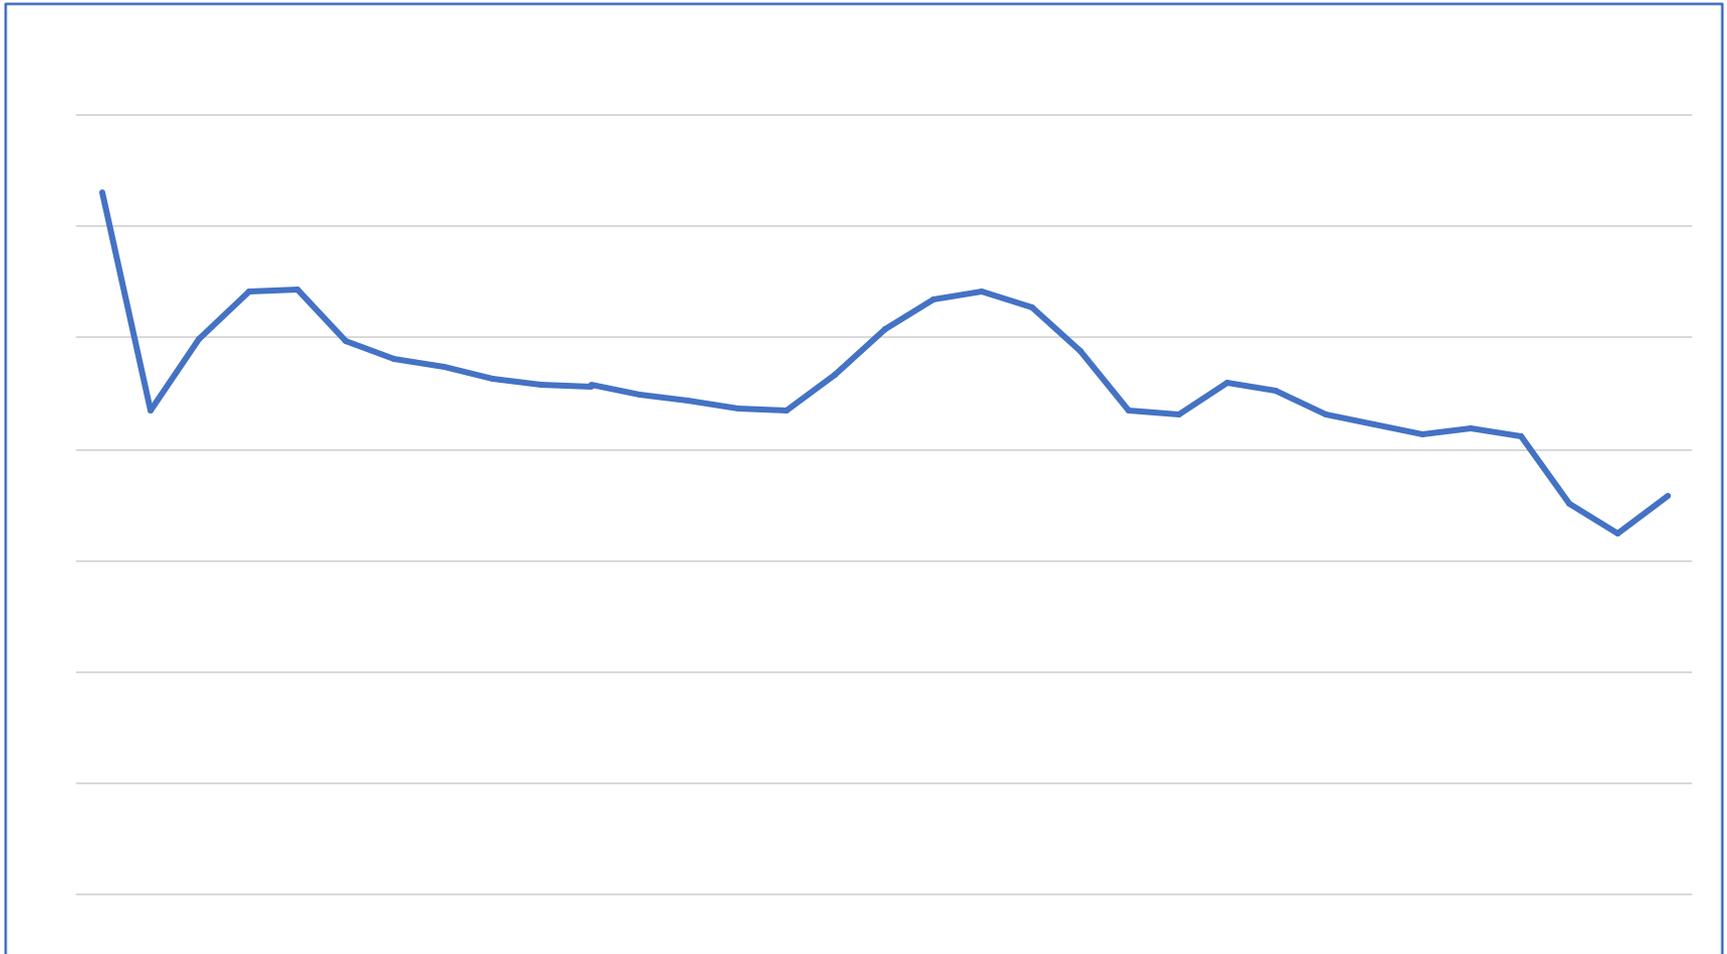

Slowing but still
above average
population growth

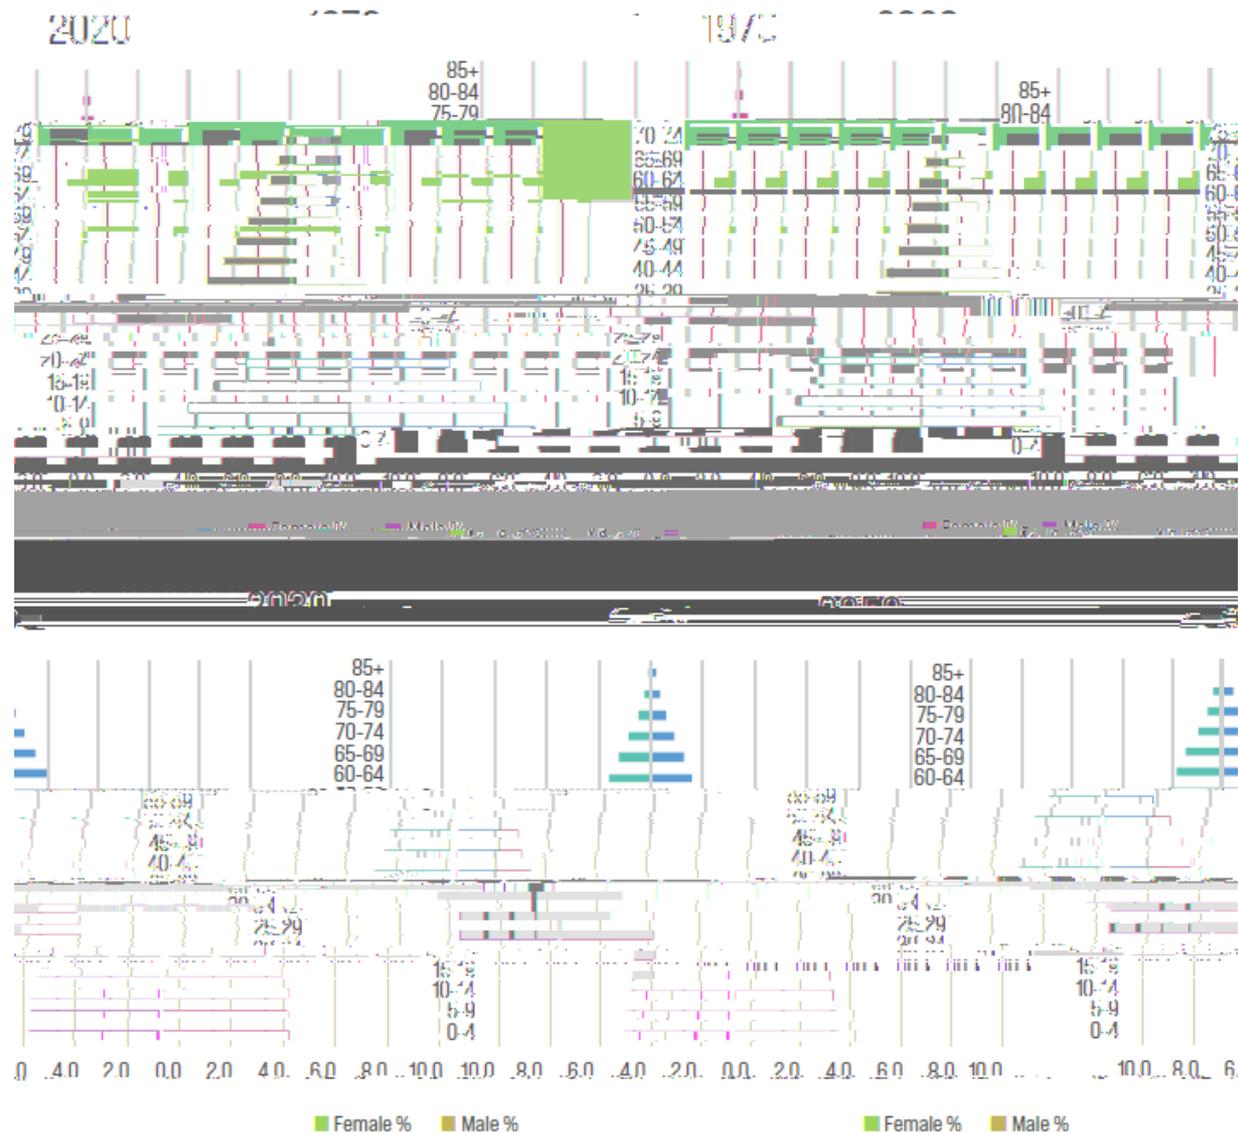

Population Size in the Arab Region

Population Growth Rate in the Arab Region (1990-2022)

Young but
increasingly ageing
population

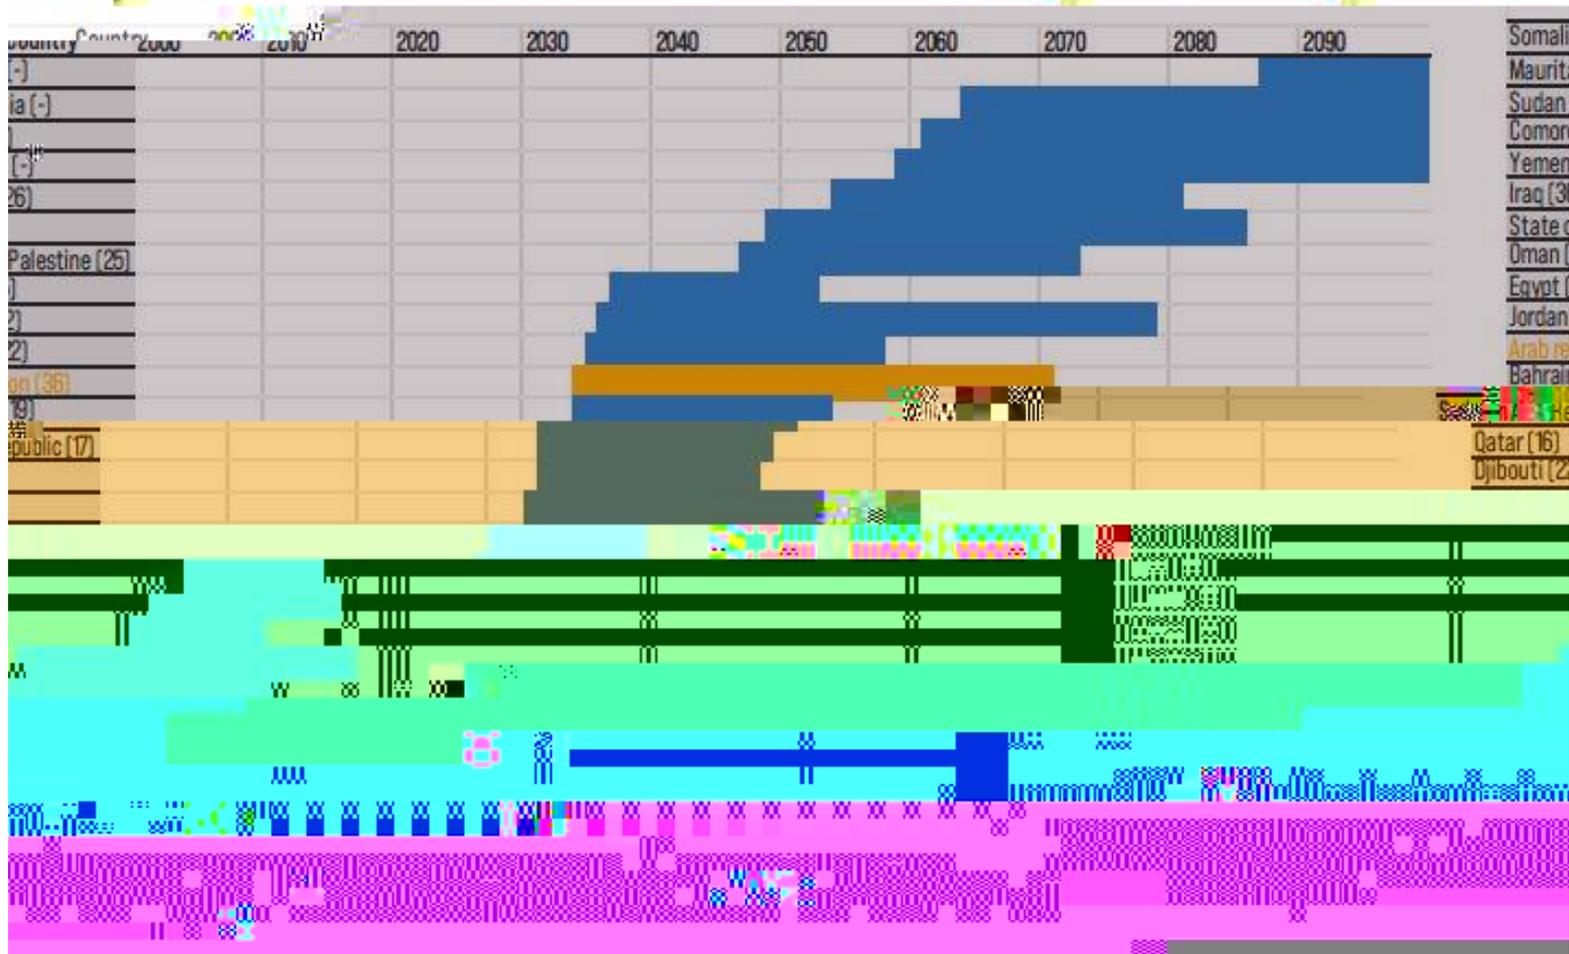

Figure 8. Age pyramid for the Arab region (1970, 2002, 2020 and 2050)

Changing
age
structure

Ageing transition

Figure 7. Ageing transitions in Arab countries (2000-2100)

A region on the move
but also host to many
migrants and refugees

Demographics of migrants and refugees
