

Danan Gu

Expert Group Meeting on
*The Post-2015 Era: Implications for the Global Research
Agenda on Population and Development*

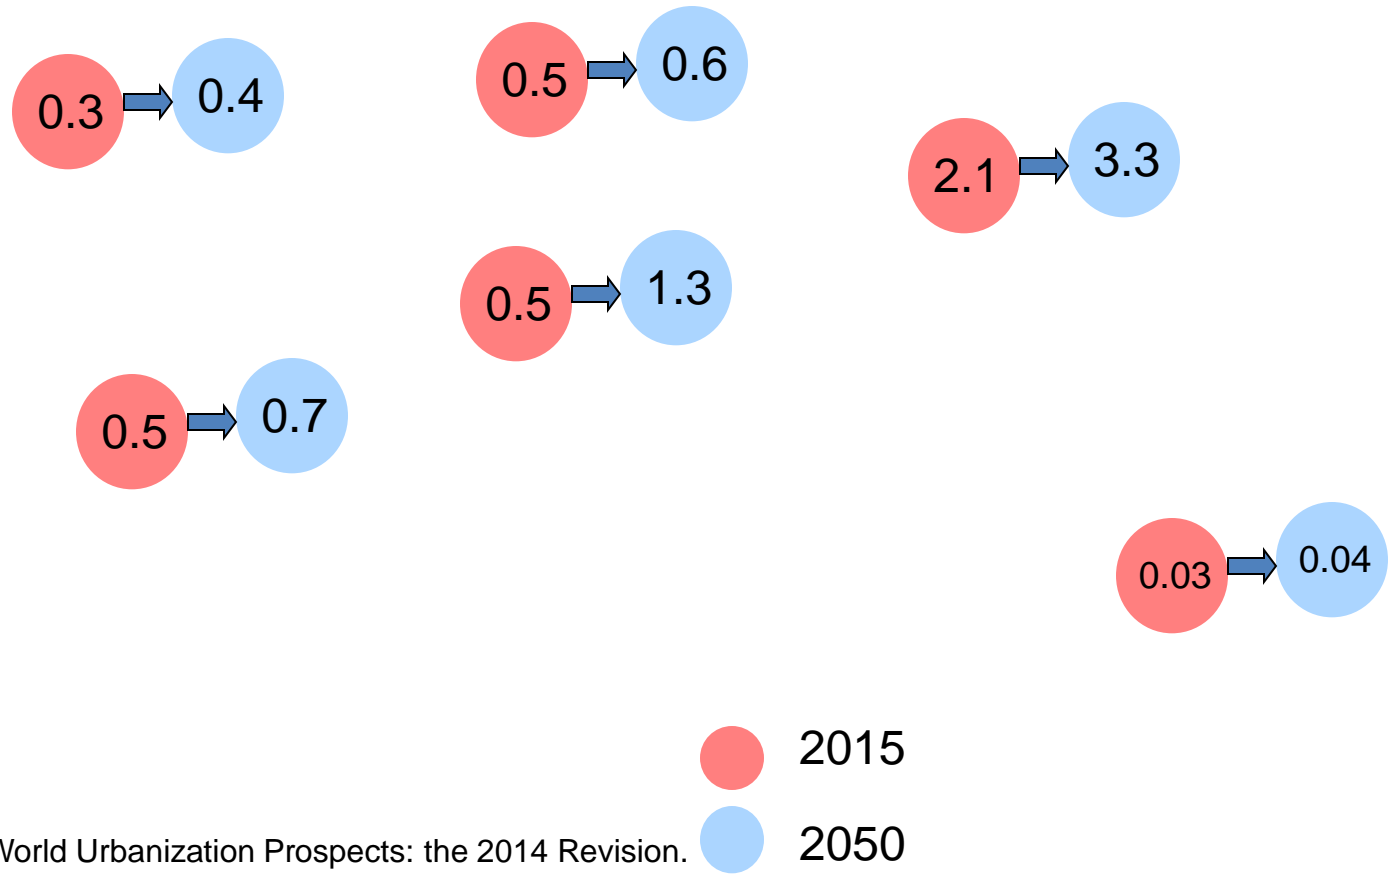

United Nations
New York, 10 April 2015

Outlines

- ① **Growth of urban population**
- ② **Growth of cities**
- ③ **Some possible challenges**

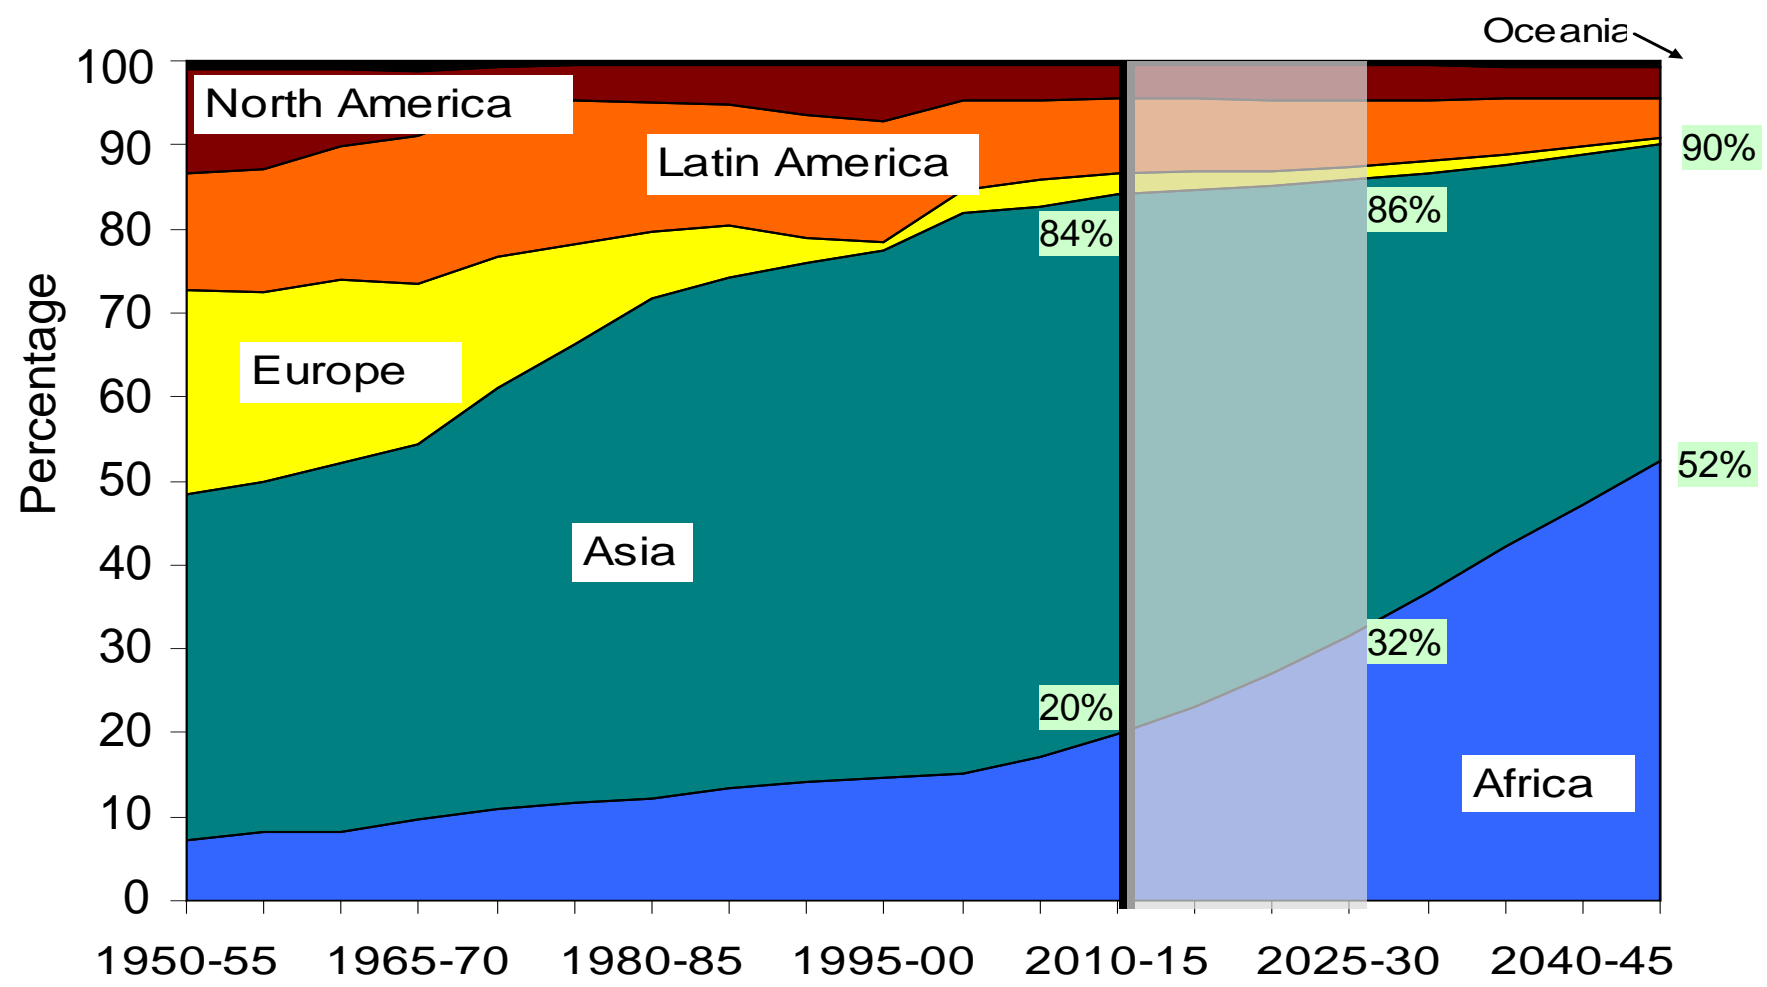

1.2 urban population by major area (billions)

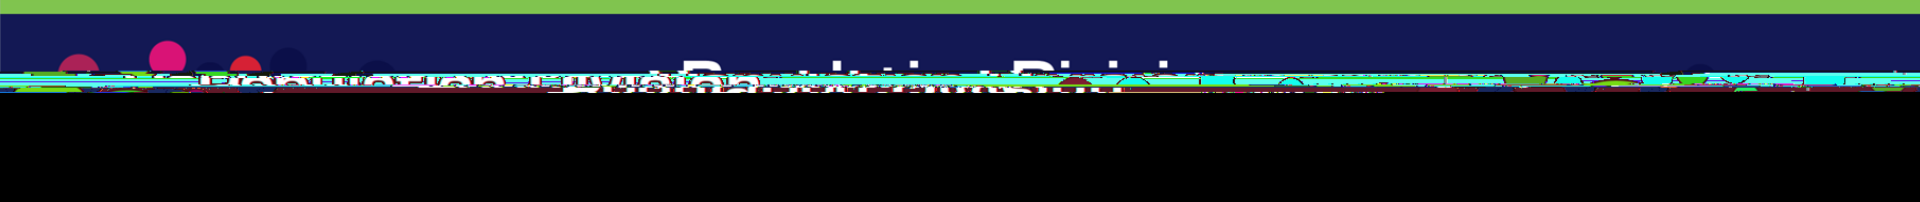

Source UN (2014), World Urbanization Prospects: the 2014 Revision.

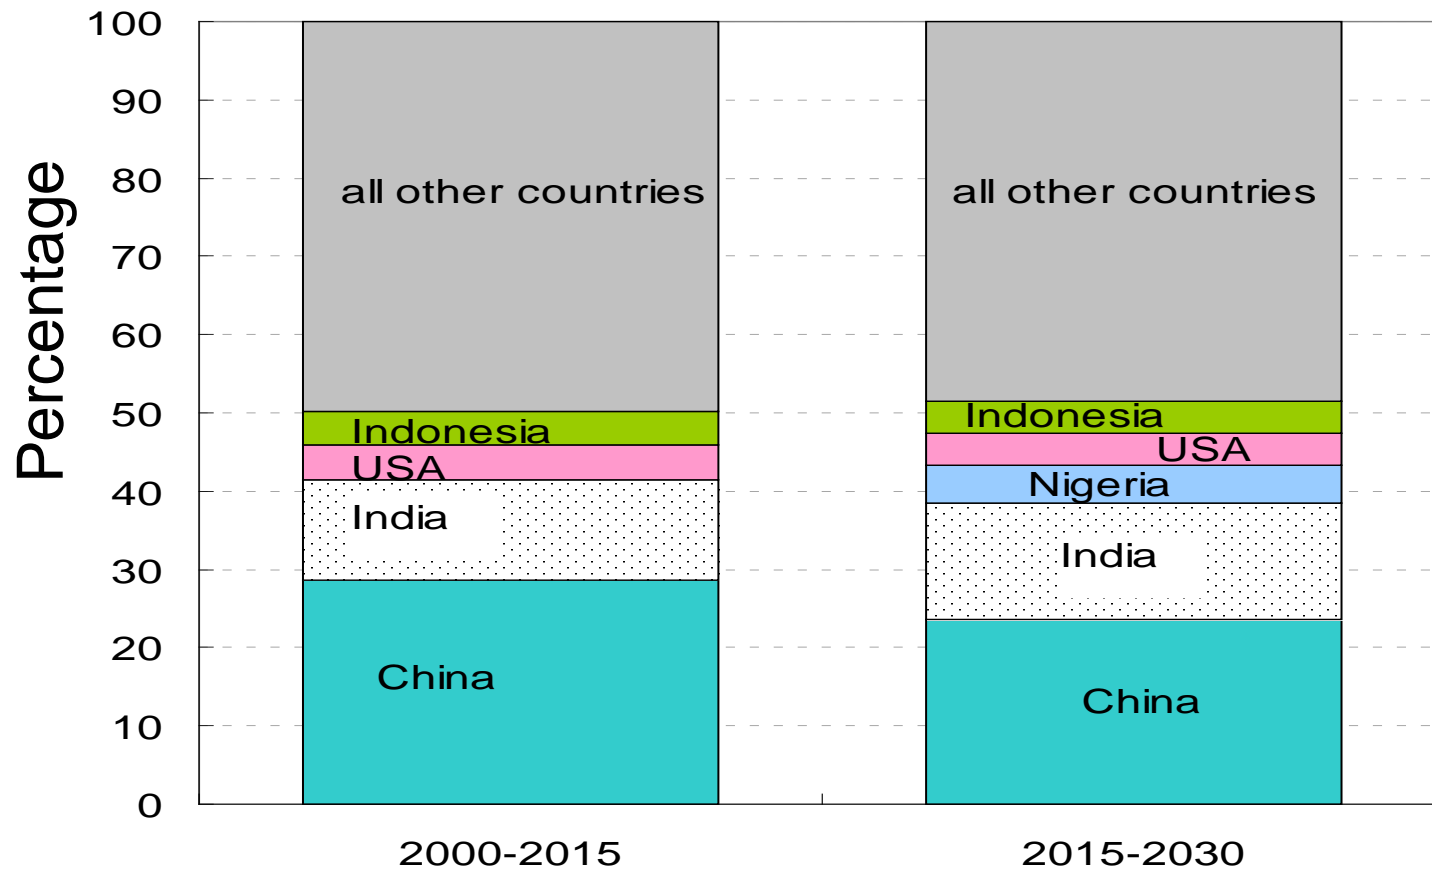

1.3 Shares of increase in urban population by major area

Source UN (2014), World Urbanization Prospects: the 2014 Revision.

1.4 Shares of increase in urban population by country

Note: Only countries having a percentage share above 4% are shown in the plot.
 Source UN (2014), World Urbanization Prospects: The 2014 Revision.

2.1 Annual growth rate of cities, 1990-2014

Source UN (2014), World Urbanization Prospects: the 2014 Revision.

4

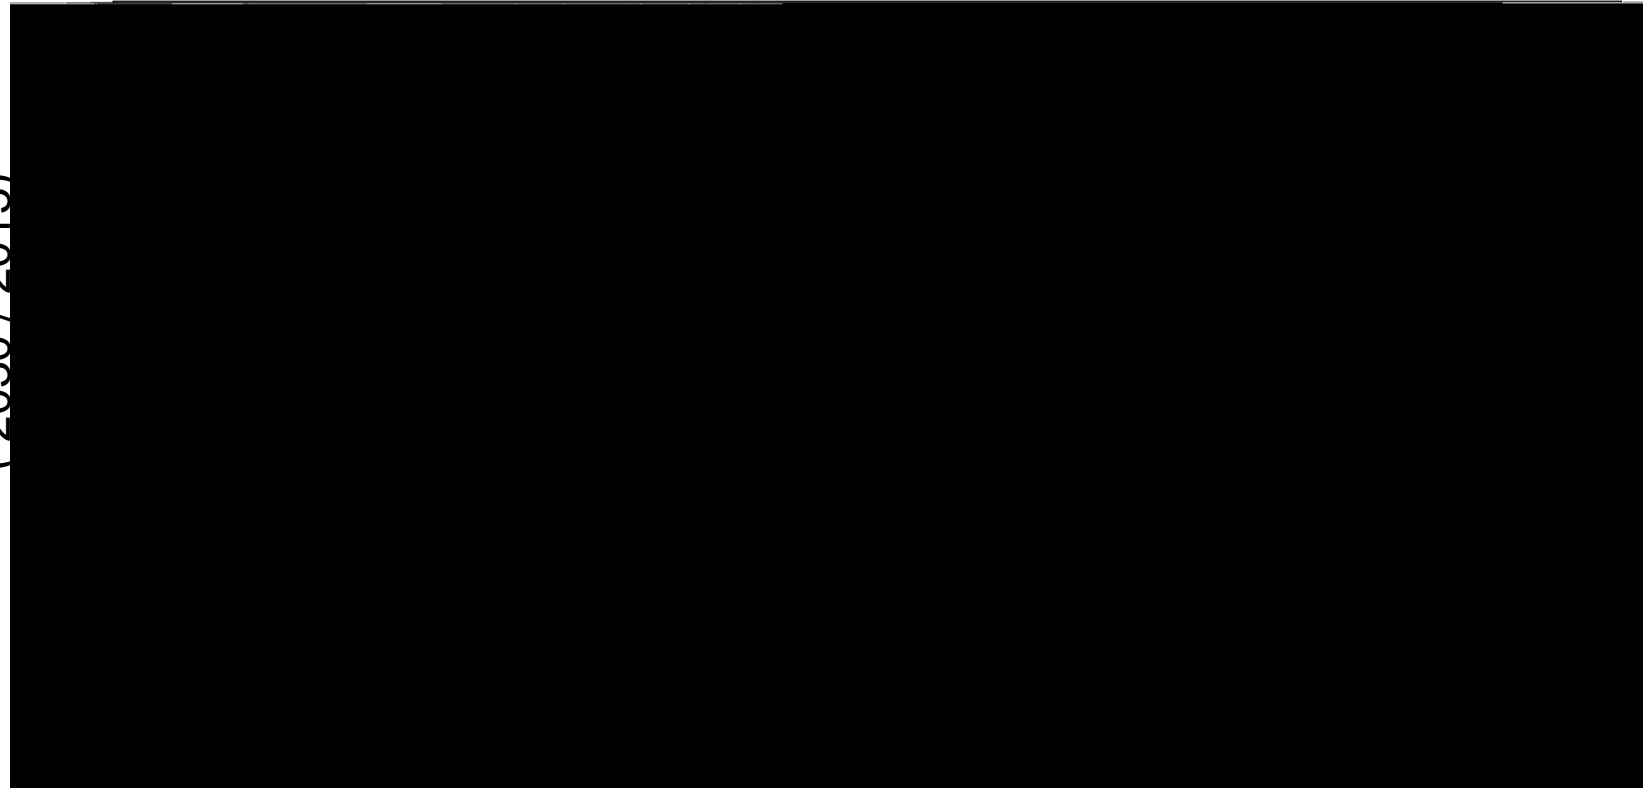

of cities with a growth rate above 5% in a major area.

Source UN (2014), World Urbanization Prospects: The 2014 Revision.

3.1 Growth in the urban population versus the proportion living in slums

Ratio of urban Population
(2030 / 2015)

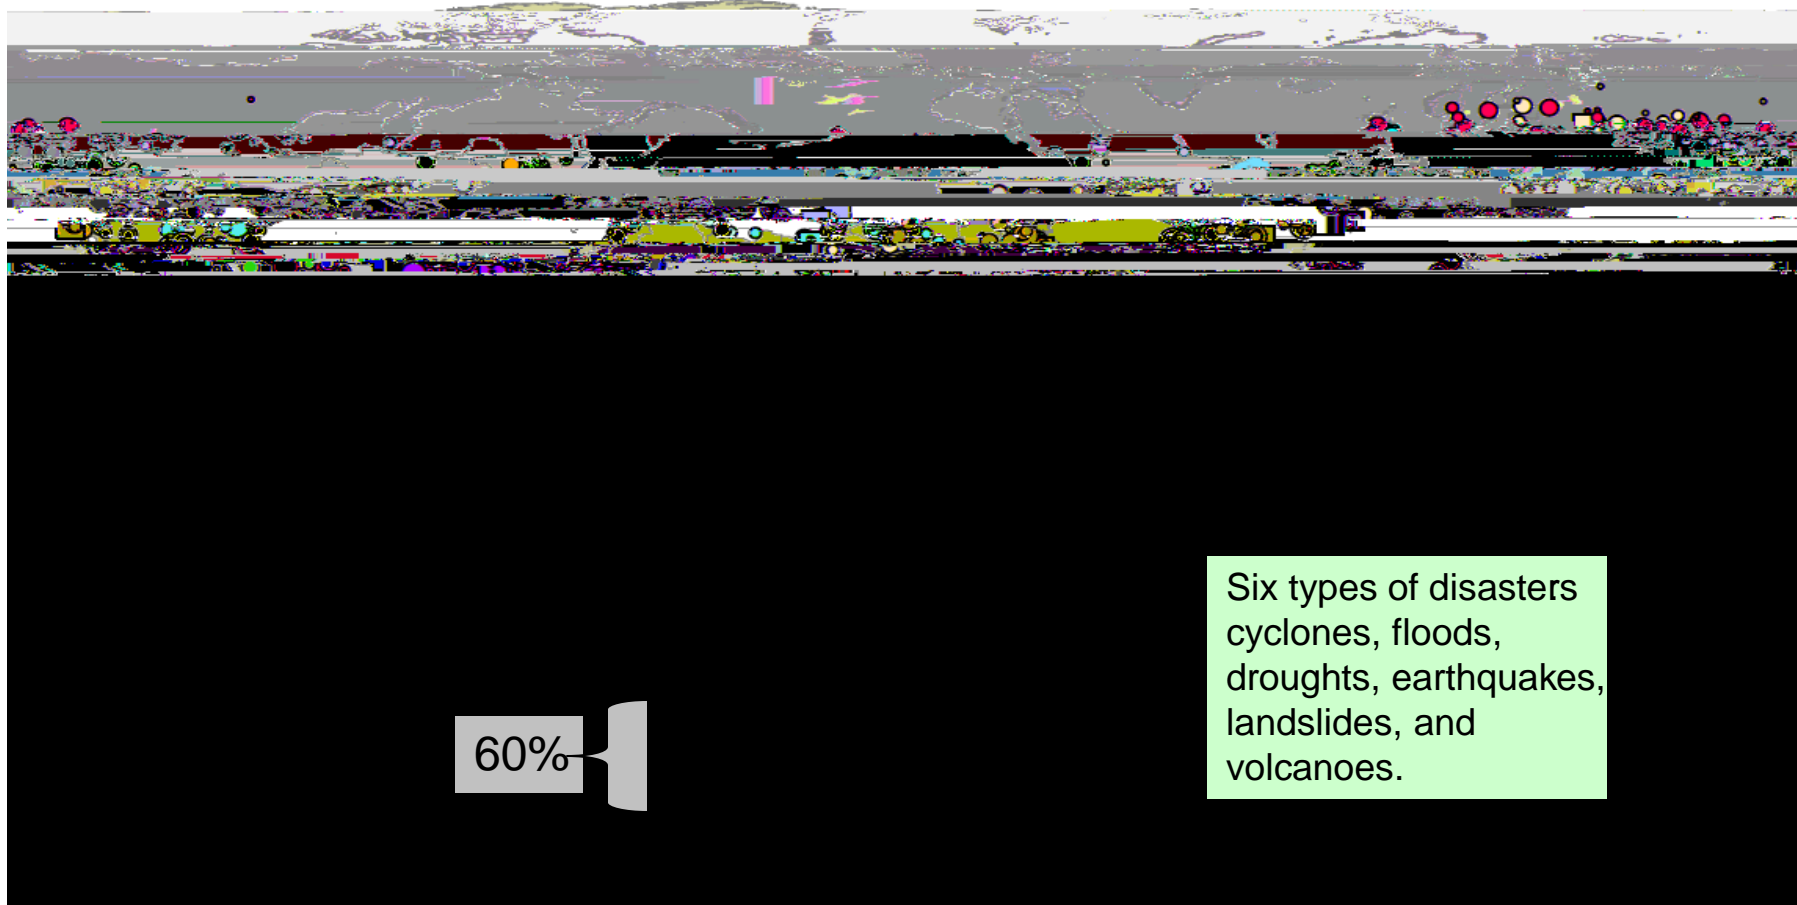

% Urban dwellers residing in slums in 2009

Source: (1) Slum Proportion is from Millennium Development Goals Indicator (<http://mdgs.un.org/unsd/mdg/Data.aspx>)
(2) Urban Population is from World Urbanization Prospects: The 2014 Revision.

3.2 Exposure risks of cities (above 0.3 m residents) to six types natural hazards, 2014

3

Source (1) UN (2014), World Urbanization Prospects: The 2014 Revision. (2) Data on natural disaster hotspots are from Center for International Earth Science Information Network (CIESIN), Columbia University.

Key points

1. 1.1 billion urban population will be added by 2030, mainly from Africa and Asia.
2. Increase is concentrated in a few countries.
3. Fastest growing cities are from Asia and Africa.
4. Percentage share of urban population by megacities increases faster, yet most people lives in smaller cities.
5. Many fast growing cities in developing countries have a higher % of people living in urban slums.
6. 60% of cities are at a high risk to at least one type of natural hazard.
