

Presentation on the GMG Migration and development data handbook at the DESA Coordination

3. Next Steps

We want to ensure that the handbook is widely used and read.

It could be used in data training courses; at a recent data conference organized in Berlin by IOM's GMDAC, there were many calls for such capacity-building initiatives.

It could also be developed into training modules.

The GMG Data Working Group co-chaired by DESA and IOM, would like to use the handbook a
