MAJOR INITIATIVES RELATED TO INTERNATIONAL MIGRATION AND DEVELOPMENT

The Asia-Pacific Regional Thematic Working Group (TWG) on International Migration including Human Trafficking, which is co-chaired by ESCAP and IOM, jointly organized the Asia-Pacific Regional Preparatory Meeting for the Global Forum on Migration and Development (GFMD) 2010, held from 22-24 September 2010 in Bangkok. During the Meeting four roundtables were held. Each of the roundtables was jointly organized by several agencies represented in the Thematic Working Group. The roundtables featured the following themes:

- Migration and Health (organized and conducted by IOM, UNFPA and UNAIDS)
- Migration, Gender and Families (organized and conducted by UNIFEM and ESCAP)
- Partnerships for more regular and protected migration and strategies to address irregular migration (organized and conducted by ILO, OHCHR, UNODC and UNHCR)
- Linking Migration and Development (organized and conducted by ESCAP and IOM)

Recommendations from the roundtable discussions and plenary discussions led to the “Bangkok Statement on Migration and Development”, which was adopted by consensus by all the 31 participating Asia-Pacific Governments at the Meeting. The “Bangkok Statement on Migration and Development” recognizes the contribution of migrant workers as development actors and gives recommendations to enhance the protection of migrant workers, and to facilitate migration through regular channels. It also recommends that “efforts be strengthened to collect and share migration data, including health, sex and age disaggregated data; undertake qualitative and quantitative studies; and to analyse the impact of migration on families in order to promote better policy formulation and provision of services.”
