

'Brain drain' in the health sector of developing countries

- › Migration of highly skilled individuals
- › Crucial sectors: health and education
- › Reluctance to invest

**What does the
Commission suggest?**

The crisis in human resources in the health sector:

The African dimension

Push factors:

- › Lack of training
- › Poor working conditions
- › Lack of incentives

Pull factors:

- › Higher salaries
- › Better opportunities
- › High global demand

EU action

- › *Communication on the Crisis in Human Resources for Health in Developing Countries*

National level:

- › Poverty Reduction Strategies
- › Evaluation and information
- ›

- › Working in partnership
- › Making migration work for all countries concerned, as well as for
