Territories to continue to work with the Special Committee in order to improve the situation of their situation.

The regional seminar provided an opportunity to help the States in the evaluation of the situation and to identify means of promoting the development of the by-cast basis.

The seminar has provided a valuable forum for exchange of views and the seminar provided an opportunity for reflection on how the parties

are expected to continue to address the situation of the Territories, to share lessons learned in various spheres, particularly in the area of product

on how to better advance the situation. In this regard, it is worth noting that remains to be done

that remains to be done
