Abstract

The article discusses the legal status of refugees and migrants in Indonesia. It examines the differences between the two groups and the legal framework governing them. The author argues that the current legal system is inadequate and needs to be reformed to better protect the rights of these vulnerable groups. The article also discusses the role of the state and international law in the protection of refugees and migrants.

Keywords: refugees, migrants, legal status, Indonesia, international law.

that generate migration movements persist when they

are not eliminated by the market forces of supply and demand.

These movements are not necessarily the result of a

market failure, but they are the result of a

market failure that is not corrected by the market

forces of supply and demand.

These movements are not necessarily the result of a
