

# POPULATION GROWTH

Population growth is a significant factor in the development of a country. It can lead to increased demand for resources, infrastructure, and services. However, it can also lead to environmental degradation and social inequality. Understanding population growth is essential for planning and policy-making.

## POPULATION SIZE

The Philippines is the second largest population in Asia.

100 699

93 448

Population growth in the world, 2010-2015

Population growth in the world, 2010-2015. The world population is projected to increase from 6.9 billion in 2010 to 7.9 billion in 2015. This growth is driven by an increase in the number of people aged 15 and over, from 5.6 billion in 2010 to 6.6 billion in 2015. The number of children aged 0-14 is projected to decrease from 1.3 billion in 2010 to 1.3 billion in 2015. The number of people aged 65 and over is projected to increase from 0.5 billion in 2010 to 0.8 billion in 2015.

Map 10: Districts of the Metropolitan Area of the Capital Region

The slow decline in age 0-14 is because of prevailing high fertility among women.

The rate was relatively unchanged in the earlier two decades (1973-1993) and only 1 child in the recent two

The increasing population slow decline in age 0-14 is because of the prevailing high fertility among young women. The country's fertility rate has stagnated to 3 children since 2003 from 4 children in 1973, 1983.

# High fertility is sustained by increasing youth dependency

	2010	2011	2012	2013

## Determinants of High Fertility

11

12

13

## Demographic Impact to Economy

the more serious criticism against the Philippines' growth profile is that it is stark inequality in development

- The per capita Gross Regional Domestic Product (GRDP) in 2010 is only P10,000

(Source: Philippine Statistics Authority, 2011)

Development

Youth unemployment

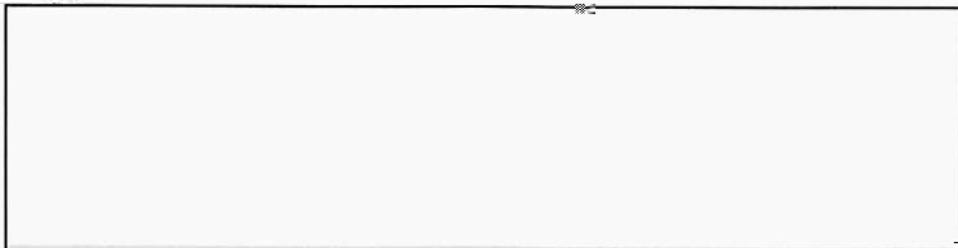

Development

## Challenges in Population Policy

- Preventing maternal mortality in the full implementation of RH law in the country

- Demanding financial support for RH training

## POLICIES AND PROGRAMS

## Key Actions Done

1. Review and update the project charter to reflect the current scope and objectives.

2. Conduct a stakeholder analysis to identify key stakeholders and their interests.

3. Develop a detailed project plan, including a Work Breakdown Structure (WBS) and a Gantt chart.

4. Establish a communication plan to ensure regular updates and transparency.

5. Initiate the project by assigning roles and responsibilities to team members.

6. Monitor project progress against the plan and adjust as needed.

7. Conduct regular status meetings to discuss progress, challenges, and next steps.

8. Manage risks by identifying potential issues and developing mitigation strategies.

9. Ensure quality control by implementing a quality management system.

10. Close the project by conducting a final review and documenting lessons learned.
