

Statement

3 Baltic States -

Estonia, Lithuania and my own country Latvia.

We align ourselves with the statement delivered by the distinguished representative of the European Union.

These unacceptable manipulations must be rigorously rejected to ensure the integrity

the law of other countries at national level, threatening judiciary for performance of their constitutional duty.

In conclusion, the rule of law guides us towards a more peaceful, just, and prosperous future in a complex and uncertain world. It is not a fixed destination, but a continuous pursuit that requires our unwavering dedication. The United Nations, with its global mandate, is uniquely positioned to lead this endeavor. The rule of law is not an ideal but a practical necessity to address urgent global challenges.
