UNHCR

Background

1. The Applicant is a former staff member of the United Nations High Commissioner for Refugees (UNHCR).

2. On 1 October 2021, the Applicant filed a written statement, *inter alia*, that he wanted to challenge allegations of misconduct made against him.

3. On 5 April 2022, the Registry informed the Applicant that if he wished to challenge any administrative decision, he was required to do so using the appropriate form available on the UNDT website and to file his application using the Court Case Opening Form.

4. On 11 April 2022, the Registry noted that the Applicant had attempted to file an application in CCMS but had failed to use the correct application form. The Registry emailed the Applicant the correct form and instructed him to include all the documents supporting his application as attachments and upload it into his case file in CCMS.

5. On 11 May 2022, the Registry directed the Applicant to the Office of Staff Services for further assistance.

6. On 11 June 2022, the Registry sent the Applicant a reminder and informed him that should he not file a complete application, his case would be assigned to a Judge for determination in its present state.

7. The Applicant responded to the Registry on 6 July 2022 and provided a telephone number for the Applicant's lawyer to contact the Registry to follow up with the information funding case of the IGO last July 2021.

8. On 22 July 2022, the Registry informed the Applicant that it was his responsibility to contact his lawyer and request him to file a complete application on his behalf. He was again informed that if he failed to file a complete application, his case would be referred to a Judge and would be determined in its present state.
