

## UK Statement Links FFD-Post-2015

Thank you Mr. Co-facilitator.

Would like to align with the statement made by the European Union on behalf of the EU and its member states.

Our discussion this week has clarified that the FFD summit will cover a wide range of financial and non-financial means of implementation. This is very encouraging and means that we should be able to tackle the full range of challenges reflected in the means of implementation for the post-2015 agenda in these FFD discussions.

As we and others have said, we need coherence between the FFD process and post-2015 process, and to avoid duplication.

In our view, FFD should **be** the MOI pillar. This is the best way to ensure that the post-2015 framework includes a serious and actionable MOI component. As Amina Mohammed has said, we need to be transformational and forward looking.

In this spirit we welcome proposals for a joint session between the two processes, to promote mutual understanding and clarity, and to understand better how the Addis outcome can best be integrated into the post-2015 framework
