*k+ Ngi kuncvkg"cpf "r qriek {"cevkqpu"

List of actions

Objectives and strategies of National forestry policy remain unchanged. (Continuous)

Strengthen the legal provisions to obtain benefits from forests to local communities. (Continuous)

Develop policy strategies to involve local communities in Ecotourism. (Continuous)

Develop policy strategies to produce edible products in forest restoration. (Planning)

Description of actions

There are forest dependant people around the forests. They collect Non Timber Forest Product (NTFP), obtain drinking water and encroach forest lands. The legal provisions were strengthened for sustainable use of the resources and to control harmful forest dependence action. Rural youths and communities are given the opportunity to take part in Ecotourism as an alternative income generation activity.

*k+ Kpuvkwkqpcr"cevkqpu

List of actions:

People were issued permits to collect NTFPs from the forests. (Continuous)

Provide opportunities to local people to involve in ecotourism activities in forest areas as guides, service providers. (Continuous)

Regulate drinking water tapping in natural forests in order to share the water resource equitably. (Continuous)

Establish agroforestry woodlots with local communities. (Continuous)

Establish trees which produce edible fruits or other products with other forest tree species in reforestation programmes. (Continuous)

*kk+ Hkpcckn'cevkpu

List of actions:

Facilitate of channelling funds from other sectors to communities to develop ecotourism facilities and drinking water facilities.

Description of actions:

*kx+ Vgej pkecn'cpf "uekpvhke"cevkpu

List of actions:

Implement the National Forest Inventory.

Update Forest Cover Map.

Description of actions:

National Forest Inventory is done island wide to assess bio diversity, growing stock and other hydrological parameter of forests.
