(ii) Institutional actions - NATIONAL

List of actions:

At national level, the Swiss õForest Policy 2020ö is being implemented.

Description of actions:

Swiss õForest Policy 2020ö: Objectives, strategic directions and measures

- The sustainably harvestable wood harvest potential shall be exhausted
- Climate change: the forest and use of wood shall contribute to mitigation and the impacts on forest services shall remain minimal
- The protective forest service shall be guaranteed
- Biodiversity shall be conserved and improved in a targeted way
- Forest area shall be conserved
- The economic efficiency and performance of the forestry sector shall improve
- Forest soil, drinking water and the vitality of the trees shall not be endangered
- The forest shall be protected against harmful organisms
- The forest-wildlife balance is guaranteed
- The use of the forest for leisure and recreation shall be respectful
- Education, research and knowledge transfer

(iv) Technical and scientific actions - INTERNATIONAL List of actions: a)

- 2.1 Extreme poverty for all forest-dependent people is eradicated
- 2.2 Increase the access of small-scale forest enterprises, in particular in developing countries, to financial services, including affordable credit, and their integration into value chains and markets
- 2.3 The contribution of forests and trees to food security is significantly increased
- 2.4 The contribution of forest industry, other forest-based enterprises and forest ecosystem services to social, economic and environmental development, among other things, is significantly increased
- 2.5 The contribution of all types of forests to biodiversity conservation and climate change mitigation and adaptation is enhanced, taking into account the mandates and ongoing work of relevant conventions and instruments

(ii) Institutional actions NATIONAL

Description of actions:

- 2.4. The aim of the Wood Resource Policy is to ensure that wood from Swiss forests is supplied, processed and used in a way that is sustainable and resource-efficient. With its three priority areas of optimised cascade usegous optimised optimised cascade usegous optimised cascade usegous optimised cascade usegous optimised optimised cascade usegous optimised cascade usegous optimised cascade usegous optimised cascade usegous optimised optimised cascade usegous optimised cascade use
- 2.5. In the recent years, forest biodiversity was enhanced by implementing the national action plan of the Swiss Biodiversity Strategy. This included increasing well structured and species-rich forest boundaries, increasing dead wood (standing and lying), increasing and protecting old-growth trees, increasing the proportion of broad-leaved tree species adapted to the site at the cost of coniferous trees.

List of actions: 2.5 The total public budget for the environmental performance of Swiss forests is CHF 169 million in

Financial actions - NATIONAL

(iii)

(iv) Technical and scientific actions NATIONAL

List of actions:
Research on ecosystem services is prioritized through the Swiss scientific platform SwissForestLab, managed by several Swiss leading research institutions.
https://www.wsl.ch/en/forest/forest-development-and-monitoring/swissforestlab.html
Switzerland also supports a National Fund on Forest and Timber Research, to which institutions and private entrepreneurs can apply for funding related projects.
Description of actions:
The SwissForestLab is a research platform and infrastructural network. By making intensive use of synergies from the expertise in forest research in Switzerland, it promotes cooperative research in order to obtain an in-depth understanding of ecosystem functioning, resistance and resilience of forests.

⁷ Goal 4 and its targets support and contribute to the achievement of, among other things, targets 12.a, 15.7, 15.a, 15.b, 17.1617.3, 17.6, 17.7 and 17.16617.19 of the Sustainable Development Goals, as well as Aichi Biodiversity Ta f alb, 17.1

(b) If your Government has announced a voluntary national contribution or contributions re	muning to
goal 4, please provide brief information, including target dates and the progress made thus far.	
(c) Since 2015, has your country (the Government, the private sector, communities, civil so others) been able to mobilize significantly increased financial resources for the implementation of susforest management?	
Yes No	
If yes, please specify the sources:	
Public domestic funding	
Private domestic funding	
Public international funding, including official development assistance	
Private international funding	
Blended financing	
Please describe the main challenges in mobilizing funds in a maximum of 250 words:	
Funds are mobilised in order to further adapt forests to climate change.	
The challenges are the low timber prices, that does not encourage to invest. In addition, ecosystem services are not or little compensated by the users.	n

6. (a) Please describe major actions taken in your country to move towards goal 6 and its associated targets. More detailed information on actions for each target may be supplied below.
(b) If your Government has announced a voluntary national contribution or contributions relating to goal 6, please provide brief information, including target dates and the progress made thus far.
(c) Are criteria and indicators for sustainable forest management used in your country?
Yes No
If yes, please specify which sets are used:

To report on forests to regional and international organizations (please specify):

Please provide a brief description:
(b) What action has been taken (by the Government, the private sector, communities, civil society or others) in your country in observance of the International Day of Forests?
Cultural activities (for example, art, music, film and theatre)
Educational activities (for example, workshops and symposiums)
Media activities (for example, newspapers, magazines, television and radio)
Social media activities
Other
