

Opportunities for Development in the Transport Sector

and smooth processing of formalities

Means to allow goods to proceed to their final destination. No longer itineraries, no unpacking, no delays

A control

(e.g., regional and international agreements, regulations from other sectors);

- ▶ Transportation policy influences overall transportation infrastructure development because it determines where funding resources are allocated and how those funding decisions are made. This in turn can affect development patterns and the economy, which in turn influence the demand for

Challenges

- ▶ Border delays
- ▶ Coordination of institutions and MSs
- ▶ Liquidity crunch
- ▶ Historical legacy debt
- ▶ Climate change
