

Technical session 5:
Climate change and LDC graduation

A. Background

The ongoing climate crisis is reversing development gains and posing a threat to the very existence of communities in parts of the world. The next decade will likely see escalated climate-

Knowledge creation and capacity building assistance are provided for LDCs under LDCF. In addition, the LDC Universities Consortium on Climate Change (LUCCC) aims to develop South-South and South-South-North knowledge sharing and capacity development programs in LDC universities and training institutes to address climate change through research, knowledge sharing, and education. The LDC Renewable Energy and Energy Efficiency
