According to some international organizations analysis, the transit costs of countries far from seaports are equal to 70 percent of their export earnings.

01:55

Products from countries far from these major markets are not represented on international markets. LLDCs account for less than 1 percent of

03:50

According to the same survey, relations of a lower poverty index have also risen from 20 percent to 31 percent due to declining incomes and rising unemployment.

04:50

In order to respond to the crisis related to covid, the Kyrgyz Government quickly launched a
