

High-Level Dialogue on Energy
24 September 2021

**Statement by H.E Dr. Seleshi Bekele: Minister, Ministry of Water,
Irrigation and Energy, Ethiopia**

Your Excellency Secretary-General

Distinguished Ministers, global leaders, UN Representatives, Panelists,

Members of the High Level Panel of Experts

Our Renewable energy Compact is focused on 5 major areas, access, share of renewable energy, energy efficiency, regional power trade and regulatory

The Government is intensely working to increase the current 4.5GW to 19GW in 2030 through diversifying the renewable energy mix with wind, solar, geothermal and building hydropower dams including GERD

With our policy intervention
