

bring visibility to your work, ideas and initiatives at

_____ , but may go beyond, answering any of the following guiding questions C ons of the

private sector

_____ s of expertise as that relates to the sustainable development of LLDCs. What is of interest is and how they contribute to development, whether in one specific LLDC or generally /

We value your genuine personal insights, especially where you believe your views reflect under-appreciated ideas or transformative opportunities for sustainable development.

_____ Your article should be short, provocative, and digestible to a non-expert. Short paragraphs (less than 5 lines) and bullet points can help. Where appropriate, substantiate your points with data, but the piece should read like an Op-ed, rather than a technical report. Co-authored
