# Chapeau

# Chapter ISustainable development and financing for development

We aim to end the warand the development of weaponwhich is the greatest destruction of environment and human beings. The purpose is to ensure that sustainable development is achieved without leaving anyone behind and/ithout compromising the ability of future generations to meet their own needs promised in the 2030 Agenda/Ve will ensure that the nations will be the funds to realize 2030 Agenda, rather than the developmember of war.

## Chapter II. International peace and security

We must ensure that whole world decide to end the r, weapons development weapons testing. This is the only way for international peace and security. Countries with meeters must immediately denuclearize and sign and ratify the Treaty on the Prohibition of NM decapons. The must cease all further development and testing of weapons, including nuclear tests. All humanity pledges itself to nonviolence in the settlement of all disputes of national and international standing and ideological differences.

## Chapter III. Science, technology and innovation and digital cooperation

We will place value of science, technology and innovation on the regeneration of the global environment rather than its destruction. It has an infinite potential for growth and will offer hope for the future.

## Chapter IV. Youth and future generations

We must improve the education of thouand future generations by changing the evaluation criteria. Students will learn; how topel each other and live with all living things on exactly to get food, water and oxygen how humans interact with other living things, another communicate with people with different values and respect each other. We are responsible minating the anxiety of future generations

by caring and actng for the environment. We must
